Scantech's Annual Report is posted on the Internet.

ACN: 007 954 627

### Notice of Meeting:

The Annual General Meeting of Scantech Limited will be held at:

Scantech Limited  
143 Mooringe Avenue  
Camden Park SA 5038  
On Thursday 21 November 2019 at 10.00 a.m.

## COMPANY BACKGROUND

### OUR CORE BUSINESS

Scantech is the world-leader in the design, manufacture and service of real-time measurement technologies for conveyed bulk materials. The Company has developed a broad range of industrial instrumentation utilising various measurement technologies. The application of our products is principally in the resource sector including cement, coal and minerals industries.

### HISTORY

Founded as Mineral Control Instrumentation in 1981 by Dr Jim Howarth and Richard Kelly, Scantech has grown from a small private company based in Adelaide, South Australia to a successful public enterprise. The Company grew on the strength of its physics-based research, making it the world's leading company for on-line analysis, mainly through supply of the COALSCAN range of coal analysers.

### GLOBAL INSTALLATIONS

Scantech has a large and diverse install base of on-line analysers, with more than 1,100 analysers installed in over 55 countries worldwide.

### MISSION STATEMENT

Scantech is committed to providing:

- High quality products and exceptional service to customers.
- Company growth via acquisition of related businesses and application of new technologies.
- Maximum benefits to shareholders.
- A challenging, safe and rewarding environment for all employees.

### AWARDS

Scantech has received a number of awards over the years including the following:

- Dr Jim Howarth along with other scientists won the prestigious Australia Prize in 1992. This award formally recognised the excellence of the COALSCAN range of analysers. The Prime Minister presented the award for scientific achievement to Dr Jim Howarth and colleagues for developing and commercialising instruments for the on-line analysis of minerals and coal.
- The Research and Development Magazine IR 100 Award for the On-Line Ash Measurement System.
- The Sir Ian McLennan Achievement for Industry Award won jointly with another research organisation to recognise the commercial development of the COALSCAN 4500.
- The Electronics Association of South Australian Gold Cup for excellence in commercialisation and engineering of the COALSCAN 9500 On-Line Elemental Analyser.
- The Powerhouse Museum in Sydney has recognised Scantech's COALSCAN as one of the most significant Australian innovations of the 20<sup>th</sup> century.

### QUALITY ASSURANCE

Scantech has developed and implemented a Quality Management System thereby assuring its customers of quality, safety and reliability. Scantech maintains a Certificate of Approval for ISO Quality Assurance Standard ISO 9001:2015 from the Bureau Veritas Pty Ltd.

## SCANTECH PRODUCTS AND APPLICATIONS

MINERALS	
GEOSCAN-M elemental analyser	<ul style="list-style-type: none"> <li>• Suits most ores &amp; concentrates</li> <li>• Blending &amp; bulk sorting</li> <li>• Stockpile management</li> <li>• Mine feedback, feed forward control</li> <li>• Product compliance monitoring</li> </ul>
IRONSCAN and MINERALSCAN 1500 Natural Gamma analysers	<ul style="list-style-type: none"> <li>• Uranium ore, iron ore, potash, etc.</li> <li>• Dilution monitoring</li> <li>• Bulk sorting through flow diversion</li> </ul>
TBM Series moisture analysers CM 100 moisture analyser	<ul style="list-style-type: none"> <li>• Moisture control for filtration, drying, dust, transport</li> <li>• Dry tonnage determination</li> </ul>

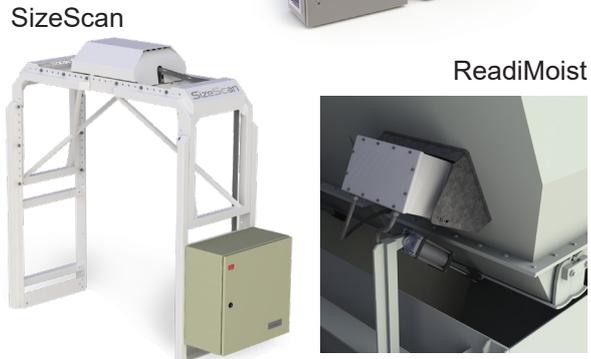

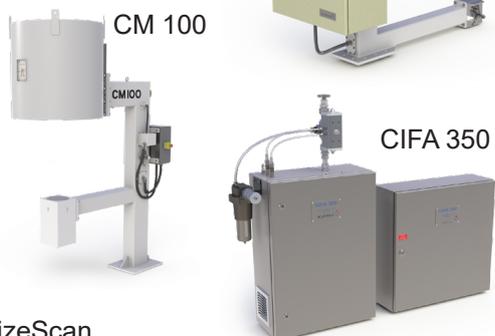

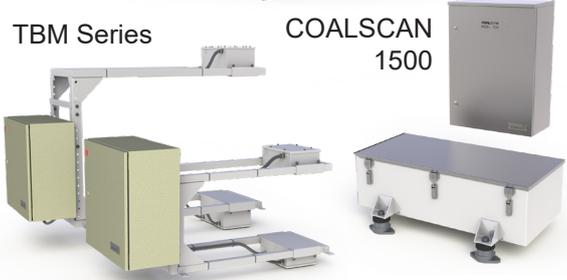

CEMENT	
GEOSCAN-C elemental analysers, BLENDSCAN software	<ul style="list-style-type: none"> <li>• Quarry feedback and control</li> <li>• Limestone sorting &amp; blending</li> <li>• Stockpile building</li> <li>• Raw mix proportioning</li> </ul>

COAL, STEEL	
COALSCAN coal quality (moisture, ash, elemental) analysers: COALSCAN 9500X, 2100 & 1500, TBM Series, CM 100 moisture analyser	<ul style="list-style-type: none"> <li>• Automated blending</li> <li>• Bulk sorting</li> <li>• Wash / prep plant optimisation</li> <li>• Loadout quality control</li> <li>• Moisture management</li> </ul>

POWER	
COALSCAN coal quality (moisture, ash, elemental) analysers: COALSCAN 9500X, 2100 & 1500, TBM Series, CM 100 moisture analyser	<ul style="list-style-type: none"> <li>• Stockpile management</li> <li>• Contract surveillance</li> <li>• Automated blending</li> <li>• Bunker feed monitoring &amp; control</li> <li>• Mine &amp; wash plant control</li> </ul>
CIFA 350 carbon in fly ash analyser	<ul style="list-style-type: none"> <li>• Boiler performance optimisation</li> </ul>

MOISTURE	
TBM Series microwave moisture analysers	<ul style="list-style-type: none"> <li>• Dust management</li> <li>• Filter &amp; dryer control</li> <li>• Dry tonnage &amp; metal accounting</li> <li>• TML monitoring for transport</li> </ul>
CM 100 moisture analyser for conductive or magnetic materials	<ul style="list-style-type: none"> <li>• Moisture monitoring of coke &amp; sinter feed for blast furnaces</li> </ul>
ReadiMoist in-hopper moisture analyser	<ul style="list-style-type: none"> <li>• Concrete batch plant control</li> <li>• Improved material flows</li> </ul>

PARTICLE SIZE ANALYSIS	
SizeScan PSD, volume & belt speed analyser	<ul style="list-style-type: none"> <li>• Next generation 3D IR system</li> <li>• Unaffected by dust, no lighting needed</li> <li>• Grinding mill, HPGR feed monitoring</li> <li>• Oversize detection</li> </ul>

## SCANTECH PRODUCTS - ENVIRONMENTAL BENEFITS

Scantech's products are well known around the world for the financial benefits they provide to producers, and users, of coal, and other minerals. However, it is not so widely known that significant environmental benefits are also achieved.

✓	Reduced Greenhouse Gas Emissions	✓	Enhanced Consistency of Quality Product
✓	Reduced Sulphur Emissions	✓	Reduced Energy Consumption
✓	Reduced "Acid" Rain	✓	Increased Life of Kilns
✓	Reduced "Unburnt" Carbon	✓	Improved Process Control
✓	Reduced Raw Material Consumption	✓	Extended Life of Mineral Deposits
✓	Reduced Shipping Costs	✓	Reduced Waste

### **COAL**

The world coal consumption is approximately 7,500 million tonnes per year, producing about 15,000 million tonnes of carbon dioxide which is released to the atmosphere. Therefore, even a relatively small improvement in the efficiency of coal-fired power stations can result in a significant reduction in greenhouse gas emissions.

Scantech's COALSCAN analysers allow coal mining to be carried out more efficiently with more saleable product for a given amount of mining activity. This reduces both the cost and environmental impact of coal production. The ability to sort and blend coal allows more coal to be sold without the need for washing. Coal washing is an energy intensive process, so reduction in the tonnes of coal washed results in energy and cost savings.

Blending using coal analysers achieves a more consistent coal quality which can improve the efficiency of coal burning in power stations. Also, power stations which have analysers can detect variations in the quality of coal before it is burnt which allows the poor quality coal to be diverted or the boiler setting adjusted to handle the change in quality.

Scantech's ability to measure sulphur on line allows companies to meet the compliance conditions for low sulphur coal. Control of sulphur emissions is important in reducing acid rain which is caused in part by emissions of sulphur dioxide.

Scantech also has a product, the CIFA 350, which determines the unburnt carbon in fly ash produced by coal-fired power stations. Real time measurement of unburnt carbon allows improvement in boiler efficiency by better control. If the carbon is controlled to a low enough level the fly ash can be used as feed material for cement making rather than being discarded as waste.

### **CEMENT**

The worldwide production of cement is approximately 3,500 million tonnes. This requires a similar quantity of limestone and minerals as well as a large amount of energy in the form of coal, oil and gas. Approximately 8% of the world's greenhouse gas emissions come from the cement industry.

Cement plants are usually located close to a limestone quarry. Corrective materials such as sand, shale, clay, bauxite and iron ore may also be required and these are typically shipped to the cement plant from other locations. Scantech's GEOSCAN analyser allows very efficient blending of these materials to provide raw mix of the correct composition for the cement-making process. In most quarries the quality of limestone is highly variable. The analyser allows these variations to be tracked and enables more efficient use of the locally available materials. This reduces the high financial and environmental costs of shipping corrective materials from outside sources. The more efficient use of local materials reduces waste and allows more cement to be produced from a given amount of quarry activity.

Scantech's GEOSCANs allow more consistent raw mix to be delivered to the cement-making process, reduce energy consumption, increase the life of the kiln and yield better cement quality. This produces both financial as well as environmental benefits.

### **MINERALS**

Similar environmental benefits to those described above can be achieved by use of analysers in the minerals industries. There is a wide range of mineral types and methods for mineral processing. However as a general rule the information provided by Scantech's GEOSCAN analysers can provide better process control with the benefits of reduced cost, reduced energy consumption and more efficient use of the mineral resource.

A GEOSCAN is able to measure ore grades and thereby divert material that is off specification, saving on processing costs and energy consumption, particularly for grinding and milling. Measurement of mineral products streams ensures that processing facilities are running efficiently and minimises any necessary reprocessing. Deleterious components can also be measured in order to comply with environmental restrictions regarding the content of toxic or environmentally harmful elements and compounds.

Scantech installed its first GEOSCAN in the iron ore industry in 2003, and has since supplied many more worldwide to the iron ore, iron sinter, manganese ore, lead-zinc, copper, phosphate, bauxite, platinum, lime, lithium and gold industries.

## BOARD OF DIRECTORS

**P D Pedler**  
**LLB (Hons) (Adel)**

---

Chairman of the Board

---

Peter Pedler is a partner of leading Adelaide law firm Duncan Basheer Hannon. He practices in the fields of commercial and property transactions and advises on due diligence and Corporate Governance issues. He also advises on Corporations Act and ASX compliance. He advises a range of public and proprietary companies.

Peter graduated with honours in 1980 and was admitted as a legal practitioner in February 1981. He is involved in a number of church and community organisations.

He was appointed to the Scantech Board on 12 August 2003.

**D J Lindeberg**  
**B.Bus, FCA**

---

Managing Director  
 Executive Director

---

David Lindeberg is a Fellow of the Institute of Chartered Accountants in Australia and joined Scantech in December 1998 as Chief Financial Officer and Company Secretary. He has had experience in accounting worldwide, working for international accounting firms from 1974 to 1989 in London, Johannesburg, Sydney and Adelaide. David also spent five years working for the South Australian Government.

David joined the Board of Scantech on 20 January 2000, as an Executive Director and was appointed Managing Director on 2 March 2001.

**L C Brett**  
**BSc, FIAA, FIA (London)**

---

Non - Executive Director

---

Laurance Brett has worked as an actuary in Adelaide since 1983

He was founding Director of the successful Adelaide based consulting actuarial firm, Brett & Watson Pty Ltd , from 1993 until his retirement in December 2018.

Laurance advised companies, government departments and large superannuation funds on a range of financial and actuarial matters.

He was appointed to the Scantech Board on 1 September 2005.

## STATUTORY REPORT OF THE DIRECTORS

Your Directors present the consolidated accounts for the financial year ended 30 June 2019.

### DIRECTORS

The following persons held office as Directors of Scantech Limited during the year ending 30 June 2019 and at the date of this report:

- Peter Pedler - Chairman
- David Lindeberg - Managing Director
- Laurance Brett - Non Executive Director

Details of qualifications, experience and responsibilities of Directors are set out on Page 6 of the Annual Report.

The number of meetings of the Company's Directors held during the year ended 30 June 2019 and the number of meetings attended by each Director was:

Name of Director	Full Directors Meetings	
	Held whilst a Director	Attended
Peter Pedler	5	5
David Lindeberg	5	5
Laurance Brett	5	5

### COMPANY SECRETARY

The following person held the position of Company Secretary for the entire period and at the date of this financial report:

Ms Valerie D Steer – Business Certificate (Accounting), Advanced Certificate (Industrial Relations) and Affiliate Member of Governance Institute of Australia. Ms Steer has worked for Scantech for the past 18 years and is currently performing the role of Chief Financial Officer. Ms Steer was appointed Company Secretary on 15 October 2001.

### PRINCIPAL ACTIVITIES

The principal continuing activities during the year of the Consolidated Entity constituted by Scantech Limited and the entities it controlled from time to time during the year consisted of:

- manufacture and marketing of scientific and industrial instruments
- consulting to the coal, cement and minerals industries and in-field support of scientific and industrial instruments

### REVIEW OF OPERATIONS

The Company recorded an audited profit before tax for the year of \$3,500,057 compared to \$1,371,618 for the same period last year.

A tax expense of \$869,804 brings the audited profit after tax for the year ended 30 June 2019 to \$2,630,253 compared to \$1,077,717 for the same period last year. This profit includes a profit of \$98,058 for exchange variants made up of \$118,904 of realised exchange gain and \$20,846 of unrealised exchange loss.

Total revenue continued to please at \$20,864,360 for the year, an increase of 33% over the last year (2018: \$15,706,100). The Company expects service revenue to continue to grow.

Due to the share buy-back and special dividend declared, shareholders funds decreased in 2019 to \$9,450,899 a decrease of 23% over the previous year.

### SIGNIFICANT CHANGES IN STATE OF AFFAIRS

On 20 December 2018 the Company announced that it would conduct a share buy-back at \$0.65 per share opening on the 2 January 2019. The shareholders approved the buy-back at a General Meeting on the 28 February 2019. As at 5 April 2019 595,473 shares were purchased back by the company at a total value of \$387,058 and the shares were cancelled.

On the 3 May 2019 the Company announced a \$0.40 per share fully franked special dividend on 13,026,898 shares totalling \$5,210,759 with payment date of 31 May 2019.

## EVENTS AFTER THE STATEMENT OF FINANCIAL POSITION DATE

No matters or circumstances not already mentioned in this report have arisen since the end of the financial year, which have significantly affected or may significantly affect:

- The operations of the consolidated entity
- The results of those operations
- The state of affairs of the consolidated entity in the financial years subsequent to the financial year ended 30 June 2019

## INDEMNIFICATION OF OFFICERS AND AUDITORS

During the financial year, the Company paid a premium in respect of a contract insuring the Directors of the Company (as named, Page 7) and all Officers of the Company and of any related body corporate, against a liability incurred by such a Director, or Executive Officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The Company has not otherwise, during or since the financial year, indemnified or agreed to indemnify an officer or auditor of the Company or of any related body corporate, against a liability incurred by such an officer or auditor.

## ENVIRONMENTAL ISSUES

The Company recognises the importance of sound environmental practice. It encourages environmental awareness by all of its employees and contractors with the objective of achieving standards of management, which, as a minimum, comply with existing Government legislation and regulations. There were no known breaches of environmental obligations during the year.

## NON-AUDIT SERVICES

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company are important.

The Board is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the provision of non-audit services as set out below, did not compromise the audit independence requirement of the Corporations Act 2001 for the following reasons:

- All non-audit services have been reviewed by the Board to ensure they do not impact the impartiality and objectivity of the auditor.
- None of the services undermine the general principle relating to auditor independence as set out in the Professional Standard APES110, including reviewing or auditing auditor's own work, acting in a management or decision making capacity for the Company, acting as advocate for the Company or jointly sharing economic risk or reward.

Details of the amounts paid or payable to the auditors Bentleys SA Audit Partnership for audit and non-audit services provided during the year are set out in Note 5 of the Financial Statements.

## DECLARATION OF INDEPENDENCE

Section 307C of the Corporations Act 2001 requires our auditors Bentleys SA Audit Partnership to provide the Directors of the Company with a Declaration of Independence in relation to the review of the full year financial statements. This Declaration of Independence appears on Page 9 and forms part of this Statutory Report of the Directors.

## LIKELY DEVELOPMENTS

Likely developments in the operation of the consolidated entity and the expected results from those operations have not been included in this report. The inclusion of such information is likely to result in unreasonable prejudice to the consolidated entity.

Signed this 29<sup>th</sup> day of August 2019 in accordance with a resolution of the Directors.

**Auditors Independence Declaration  
under section 307C of the Corporations Act, 2001  
to the Directors of Scantech Limited**

I declare that to the best of my knowledge and belief, during the year ended 30 June 2019 there have been no contraventions of:

- I. the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- II. any applicable code of professional conduct in relation to the audit.

**Bentleys SA Audit Partnership**

DAVID FRANCIS  
Partner

Dated this 29<sup>th</sup> day of August 2019.

A member of Bentleys, a network of independent advisory and accounting firms located throughout Australia, New Zealand and China that trade as Bentleys. All members of the Bentleys Network are affiliated only, are separate legal entities and not in partnership. Liability limited by a scheme approved under Professional Standards Legislation. A member of Allinial Global – an association of independent accounting and consulting firms.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2019**

**1 INTRODUCTION**

Scantech Limited is a public company limited by shares, incorporated and domiciled in Australia and is the parent entity of Scantech Limited Group of companies. This financial report is prepared for the period of 1 July 2018 to 30 June 2019 and was authorised for issue in accordance with a resolution of the Directors on the 29 August 2019.

**(a) REGISTERED OFFICE AND PRINCIPAL PLACE OF BUSINESS**

143 Mooringe Avenue, Camden Park, South Australia 5038.

**(b) CURRENCY**

The financial statements are presented in Australian dollars and rounded to the nearest dollar.

**2 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements are general-purpose financial statements which have been prepared in accordance with the requirements of the Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. For the purpose of preparing the consolidated financial statements, the Company is a for-profit entity.

The financial statements comply with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

**(a) BASIS OF ACCOUNTING**

The financial statements have been prepared on the historical cost basis and do not take into account changing money values or, except where stated, current valuations of non-current assets. The Group assesses whether there is any indication that the carrying values of its assets may be impaired. Where an indicator of impairment exists, the Group makes a formal estimate of recoverable amount. If the result shows that the carrying amount of an asset exceeds its recoverable amount of the asset, impairment exists and the asset is written down to its recoverable amount.

The accounting policies that have been consistently applied by the entities in the Group are consistent with those of the previous year.

**(b) PRINCIPLES OF CONSOLIDATION**

The consolidated financial statements of the consolidated entity include the financial statements of Scantech Limited, being the Parent Entity, and its subsidiaries. Subsidiaries are entities (including structured entities) over which the Group has control. The Group has control over an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to use its power to affect those returns. Where an entity either began or ceased to be controlled during the year, the results are included only from the date control commenced or up to the date control ceased. The balances and effects of transactions, between subsidiaries included in the consolidated financial statements have been eliminated. Non-controlling interests in the equity and results of the entities that are controlled by the Company are shown as a separate item in the consolidated financial statements.

**(c) ACCOUNTING ESTIMATES AND JUDGEMENTS**

The Directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Contract Revenue Percentage Completion:

At the end of each quarter management assesses the performance obligation for all current contract jobs, and revenue is recognised by the Group based on the stage of performance obligation of each of the projects. Any expected loss on construction contracts are recognised as an expense immediately in profit or loss.

Impairment of Product Development Costs:

Determining whether Product Development costs are impaired requires an estimation of the value in use of the cash generating units to which Product Development costs have been allocated. The value in use calculation requires the Directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. The carrying amount of Product Development costs at 30 June 2019 was \$1,716,045 (30 June 2018: \$1,716,045).

In the Directors' judgement, Product Development costs have an indefinite life and so have not been amortised but tested for impairment each reporting period. Refer Note 2(q) and Note 15 for further details.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2019**

**(d) NEW ACCOUNTING STANDARDS AND INTERPRETATIONS**

In the current year, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB). These new and revised Standards and Interpretations have not affected the reporting results or financial position.

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Group for the annual reporting period 30 June 2019. These are outlined in the table below:

Reference	Title	Summary	Impact on Group Financial Report	Application Date for Group
AASB 16	Leases	AASB 16 eliminates the operating and finance lease classifications for lessees currently accounted for under AASB 117 Leases. It instead requires an entity to bring most leases onto its balance sheet in a similar way to how existing finance leases are treated under AASB 117. An entity will be required to recognise a lease liability and a right of use asset in its balance sheet for most leases.	The assessment of the potential accounting, disclosure and financial impact on adoption of the standard has occurred. Depending on the terms of any extension of the underwood property lease, this may result in the recognition of a right to use asset (ROU) and a corresponding lease liability of estimated \$330,795.	1-Jul-19

**(e) REVENUE RECOGNITION**Product Revenue:

Product revenue comprises of revenue earned (net of returns, discounts and allowances) from the provision of products to entities outside the Group. Product revenue is recognised using the performance milestone percentage completion method.

Service Revenue:

Service revenue comprises of revenue earned (net of returns, discounts and allowances) from goods or services provided to entities outside the Group. Service revenue is recognised when the goods and services are provided.

Interest Income:

Interest income is recognised as it is accrued using the effective interest method.

**(f) CASH AND CASH EQUIVALENTS**

For Cash Flow Statement presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**(g) TRADE RECEIVABLES**

Trade receivables which generally have 30 days terms represent the principle amount owing at the end of the reporting period.

An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off to profit or loss when identified.

**(h) FOREIGN CURRENCY**Transactions:

Foreign currency transactions are translated to Australian currency at the rates of exchange ruling at the dates of the transactions. Amounts receivable and payable in foreign currencies at the end of the reporting period are translated at the rates of exchange ruling on that date. Exchange differences relating to amounts receivable and payable in foreign currencies, and the transactions in foreign currency term deposit are brought to account as exchange gains or losses in profit or loss in the financial year in which the exchange rates change.

Transaction of Controlled Foreign Entities:

At the end of the reporting period, there are no assets and liabilities in overseas subsidiaries.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2019**

**(i) TAXATION**

Income Tax:

The income tax (expense) / benefit for the year comprises of current income tax (expense) / benefit and deferred tax (expense) / benefit.

Current income tax expense charged to profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax (expense) / benefit reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax (expense) / benefit is charged or credited directly to equity instead of profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists. The deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax Consolidation:

Scantech Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated Group under the tax consolidation legislation. Each entity in the Group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities / (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The Group notified the Australian Taxation Office that it had formed an income tax consolidated Group to apply from 1 July 2003.

The tax consolidated Group has entered a tax funding arrangement whereby each company in the Group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income. Differences between the amounts of net tax assets and liabilities derecognised and the net amounts recognised pursuant to the funding arrangement are recognised as either a contribution by, or distribution to the head entity.

**(j) IMPAIRMENT OF ASSETS**

At the end of each reporting period or more frequently if events or changes in circumstances indicate they might be impaired, the Group reviews the carrying values of tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed in profit or loss. Impairment testing is performed annually for intangible assets with indefinite lives.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**(k) INVESTMENTS IN SUBSIDIARIES**Subsidiaries:

Investments in subsidiaries are carried in the Company's accounts at the lower of cost and recoverable amount. Dividends and distributions are brought to account in profit or loss when proposed by the subsidiaries.

**(l) INVENTORIES**Manufacturing Activities:

Raw materials and stores represent inventory items stated at cost price. Work in Progress represents analysers under construction for which there is no specific customer contract at the end of the reporting period. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories by the method most appropriate to each particular class of inventory. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

**(m) CONTRACTS IN PROGRESS**

Where the outcome of a contract for the construction of an analyser can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs, except where this would not be representative of the stage of completion.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable.

Contract costs are recognised as expenses in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

"Amounts due from customers" is recognised as an asset for all contracts in progress for which costs incurred plus recognised profits (less recognised losses) exceeds progress billings. A liability for "Amounts due to customers" is recognised for all contracts in progress for which progress billings exceed costs incurred plus recognised profits (less recognised losses).

**(n) PROPERTY, PLANT AND EQUIPMENT**Acquisition:

Plant and equipment is recorded at cost and depreciated as outlined below. All other items of property, plant and equipment are carried at the lower of cost, less accumulated depreciation, and recoverable amount.

Property, plant and equipment are subject to an impairment test when there is an indication that impairment exists by reference to internal and external market factors. Any item of property, plant and equipment, which is impaired, is written down to its recoverable amount. The amount of the impairment write-down for assets carried at cost is expensed through profit or loss.

Recoverable amounts are determined for individual assets, unless the value in use cannot be estimated independently from other assets. In such case, the recoverable amount is determined for the cash-generating Group of assets to which it belongs.

Revaluations of Land and Buildings:

Land and buildings are measured at fair value, based on periodic valuations by external independent valuers who apply the market approach using recent observable market data for similar properties, less accumulated depreciation on buildings and less any impairment losses recognised after the date of the revaluation. At the end of each reporting period the Directors re-assess the fair value of the land and buildings and the carrying value is adjusted accordingly.

Any revaluation increment is credited to the asset revaluation reserve included in equity, except to the extent that it reverses a revaluation decrement for the same asset previously recognised in profit or loss, in which case the increment is recognised in profit or loss.

Any revaluation decrement is recognised in profit or loss, except to the extent that it offsets a previous revaluation increment for the same asset, in which case the decrement is debited directly to the asset revaluation reserve to the extent of the credit balance existing in the revaluation reserve for that asset.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amounts of the assets and the net amounts are restated to the revalued amounts of the assets. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are included in profit or loss.

Upon disposal or derecognition, any revaluation reserve to the particular asset being sold is transferred to retained earnings.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**(n) PROPERTY, PLANT AND EQUIPMENT (CONT'D)**Depreciation and Amortisation:

Property, plant and equipment are depreciated over their useful life (3 to 15 years) using the straight line method except motor vehicles which are depreciated using the diminishing value method. The buildings are depreciated using the straight line method over 40 years.

Derecognition:

An item of property, plant and equipment is derecognised upon disposal or when no further economic benefits are expected from its use.

**(o) LEASES**

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

**(p) INTANGIBLES**Patents, Trademarks and Licences:

Measured initially at cost less accumulated amortisation and any impairment losses.

Patents, Trademarks and Licences are amortised on a straight line basis over the lesser of 20 years or life of the patent, trademarks or licences.

**(q) PRODUCT DEVELOPMENT COSTS**

No development costs have been capitalised in the current year.

No research costs are carried forward.

Capitalised Product Development costs represent the development of the current Mark IV GEOSCAN utilising universal hardware and electronics for use in the majority of Scantech's current products net of AusIndustry funding from prior years.

**(r) TRADE AND OTHER PAYABLES**

Accounts payable represent the principle amount outstanding at the end of the reporting period plus, where applicable any accrued interest.

**(s) BORROWING COSTS**

Borrowing costs are recognised as an expense in the period in which they are incurred except borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period to get ready its intended use or sale. In this case borrowing costs are capitalised as part of the cost of the asset.

**(t) PROVISIONS**Short-term Employee Benefits:

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other Long-term Employee Benefits:

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**(u) GOODS AND SERVICES TAX (GST)**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

**(v) DIVIDENDS**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at the end of the reporting period.

**(w) FINANCIAL INSTRUMENTS**

Recognition and Initial Measurement:

Financial instruments, incorporating financial assets and financial liabilities, are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial instruments are initially measured at fair value plus transaction costs where the instrument is not classified as at fair value through profit or loss. Transaction costs related to instruments classified as at fair value through profit or loss are expensed to profit or loss immediately. Financial instruments are classified and measured as set out below.

Derecognition:

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expire. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Classification and Subsequent Measurement:

(i) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost using the effective interest rate method.

(ii) Held-to-Maturity Investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Group's intention to hold these investments to maturity. They are subsequently measured at amortised cost using the effective interest rate method.

(iii) Financial Liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost using the effective interest rate method.

(iv) Available-for-sale Assets

Available-for-sale investments are non-derivative financial assets that are either not capable of being classified into other categories of financial assets due to their nature or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with any remeasurements other than impairment losses and foreign exchange gains and losses recognised in other comprehensive income and taken to revaluation reserve. When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are classified as non-current assets when they are not expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as current assets.

Impairment:

At the end of each reporting period, the Group assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in profit or loss.

On the 3 May 2019 the Company announced a \$0.40 per share fully franked special dividend on 13,026,898 shares totalling \$5,210,759.		
<u>Franking Credit Balance:</u>		
The amount of franking credits available for the subsequent financial year are:		
Franking account balance as at the end of the financial year at 27.5% (2018: 27.5%)	625,218	2,390,736
Franking credits that will arise from the payment of income tax payable as at the end of the financial year	741,515	33,631
	1,366,733	2,424,367
<b>9 TRADE AND OTHER RECEIVABLES</b>		
<u>Trade Accounts Receivable outstanding:</u>		
Current	1,344,749	2,153,025
1 – 30 days	348,063	59,835
31 – 60 days	157,110	84
61 – 90 days	0	19,047
Over 90 days	230,322	292,541
Total Trade Accounts Receivable	2,080,244	2,524,532
Other Debtors and Prepayments	280,198	261,643
	2,360,442	2,786,175

The Group does not consider there is any change in the credit quality for the trade receivables under 30 days at the date of reporting. These receivables under 30 days are made up of existing customers or new customers where the Group has performed due diligence.

Management has assessed all balances over 30 days, which are outside normal trading terms, as past due but not impaired as they are still considered to be receivable.

Carrying Amount of Land & Buildings at the end of the year	2,211,640	2,239,140

The valuation of Land and Buildings at 141-145 Mooringe Avenue, Camden Park was conducted by a local independent valuer on the 27 June 2017, and this was used to determine the fair value of the Land and Buildings at 30 June 2019. The valuation was determined by reference to recent market transactions on arm's length terms.

Assets pledged as security:

Freehold Land and Buildings with a carrying amount of \$2,885,000 (2018: \$2,912,500) have been pledged to secure borrowings of the Group (refer to Note 17).

<b>15 PRODUCT DEVELOPMENT</b>		
Development – at cost	1,716,045	1,716,045
	1,716,045	1,716,045
<u>Movement in Carrying Amounts:</u>		
Product Development at cost at the beginning of the year	1,716,045	1,716,045
Carrying Amount of Product Development at the end of the year	1,716,045	1,716,045

The Directors have determined that these Product Development costs have an indefinite life and have not been amortised but tested for impairment each reporting period. This assessment is based on the technology being expected to be used on an ongoing basis in future product applications for an indefinite period. There is strong demand for the products and Scantech holds patents, trademarks and licences over the current technology developed.

Impairment Testing:

The operations of the Group are considered a single cash-generating unit for the purpose of allocation of Product Development costs.

The recoverable amount of the consolidated entity's Product Development costs has been determined by a value-in-use calculation using a discount cash flow model, based on a 5 year projection period approved by management, together with a terminal value.

Key assumptions are those to which the recoverable amount of an asset or cash-generating units are most sensitive. The following key assumptions were used in the discounted cash flow model:

- a. 12% (2018: 13%) pre-tax discount rate;
- b. 2% (2018: 2%) per annum for 5 years, 0% per annum thereafter, projected revenue growth rate for net operating cash flows.

The discount rate of 12% pre-tax reflects management's estimate of the time value of money and the consolidated entity's weighted average cost of capital adjusted for the risk free rate.

The 2% per annum projected growth rate for net operating cash flows was based on management's view of a reasonable average long term growth rate in the context of the global financial situation and the associated volatility of net operating cash flow.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**15 PRODUCT DEVELOPMENT (CONT'D)**Sensitivity:

As disclosed on Page 24, the Directors have made judgements and estimates in respect of impairment testing of Product Development costs. Should these judgements and estimates not occur, the resulting Product Development costs may vary in carrying amount. The sensitivities are as follows:

- a. The projected net operating cash flows would need to decrease to minus 29% before Product Development costs would need to be impaired, with all other assumptions remaining constant.
- b. The discount rate would be required to increase to 50% before Product Development costs would need to be impaired, with all other assumptions remaining constant.

Management believes that other reasonable changes in the key assumptions on which the recoverable amount of Product Development costs is based would not cause the cash-generating unit's carrying amount to exceed recoverable amount.

Changes to the Corporations Law abolished the authorised capital and par value concept in relation to share capital from 1 July 1998. Therefore, the Company does not have a limited amount of authorised capital and issued shares do not have a par value. Ordinary shares carry one vote per share and the rights to dividends.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**20 CONTRIBUTED EQUITY (CONT'D)**Capital Management:

Management controls the capital of the Group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, share issues and share buy backs.

There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year. This strategy is to ensure that the consolidated Group's gearing ratio remains below 25%. The gearing ratios for the year ended 30 June 2019 and 30 June 2018 are detailed below.

	<b>Consolidated Entity</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
<u>Debts:</u>		
Trade & Other Payables	6,217,087	4,517,513

Mahshid Lindeberg, wife of Managing Director David Lindeberg, is employed by the Company as a Sales & Marketing Manager. Since 1 August 2011 she has been employed on a part time basis and her remuneration is paid on a similar basis to the other Sales & Marketing Managers. Her remuneration received in 2019 was \$96,387 and 2018 was \$85,370.

During the financial year ended 30 June 2019, Scantech Limited incurred fees in relation to legal services of \$38,644 (2018: \$33,118) from Duncan Basheer Hannon the legal firm where Peter Pedler is a partner. These transactions were entered into under normal commercial terms and conditions and at market rates. The current trade payable balance owing to Duncan Basheer Hannon as at 30 June 2019 was \$5,062 (2018: \$5,875).

Loans:

Loans between Group entities are at call basis. No interest revenue and expenses are brought to account on these loans.

**28 FINANCIAL INSTRUMENTS**

a) Financial Risk Management:

The Group's financial instruments consists mainly of deposits with banks, short-term investments shares in Australian listed entities, accounts receivable and payable and banking facilities.

The main risks arising from the Group's financial instruments are foreign currency risk, interest rate risk, liquidity risk, credit risk and other price risk. Senior management, in conjunction with the Board, reviews and agrees on policies for managing each of these risks.

Financial Risks:

The main risks the Group is exposed to through its financial instruments are interest rate risk, foreign currency risk, liquidity risk and credit risk.

Interest Rate Risk:

Both financial assets and liabilities are subject to floating interest rates. The Company manages its cash at bank and loan balances through a mixture of fixed and variable interest rates.

Foreign Currency Risk:

The Group is exposed to fluctuations in foreign currencies arising from the sales, purchase of goods and services and term deposits in currencies other than the Group's measurement currency, predominantly in EUR, ZAR, USD and CAD. Refer to Notes 9, 12 and 16 for further details.

The Group is continuously monitoring the foreign currency exchange exposure. The Group's policy for dealing with the foreign currency risk does not include forward cover. The Group has natural hedges with amounts on term deposit invested in foreign currency.

Other Price Risk:

The Group is also exposed to securities price risk on investments. Such risk is managed through diversification of investments across industries and geographical locations.

**FOR THE YEAR ENDED 30 JUNE 2019**

**28 FINANCIAL INSTRUMENTS (CONT'D)**Liquidity Risk:

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Group manages its liquidity by forecasting liquidity reserves based on future cash flows and ensuring it has credit facilities available for immediate use should the need arise. Cash flow forecasts are reported to the Board monthly.

Credit Risk:

The maximum exposure to credit risk, excluding the value of any collateral or other security, at the end of the reporting period to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in Notes 9, 11 and 18.

The Group tries to minimise credit risk by obtaining prepayments from major customers.

The Group does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the Group. There are no significant concentrations of credit risk within the Group.

(b) Financial Instruments:(i) Liquidity and Interest Rate Risk:

The economic entity's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is as follows:

<b>30 June 2019</b>	<b>Weighted Average Effective Interest Rate</b>	<b>Floating Interest Rate</b>	<b>Within Year</b>	<b>1 to 5 Years</b>	<b>Over 5 Years</b>	<b>Total</b>
	%	\$	\$	\$	\$	\$

**FOR THE YEAR ENDED 30 JUNE 2019**

**28 FINANCIAL INSTRUMENTS (CONT'D)****(iii) Sensitivity Analysis:**

As at 30 June 2019, the effect on post tax profit and equity as a result of changes in the interest rate, share price and foreign currency, with all other variables remaining constant would be as follows:

	<b>Consolidated Entity</b>	
	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
<b>Interest Rate:</b>		
Increase in interest rate by 0.50%	18,791	9,516
Decrease in interest rate by 0.50%	(18,791)	(9,247)
<b>Investment Share Price:</b>		
Increase in share value by 5%	165,218	153,089
Decrease in share value by 5%	(165,218)	(153,089)
<b>Foreign Currency:</b>		
Improvement in AUD to USD by 5%	(85,183)	(45,058)
Decline in AUD to USD by 5%	94,148	49,799
Improvement in AUD to EUR by 5%	(45,651)	(32,624)
Decline in AUD to EUR by 5%	50,456	36,060
Improvement in AUD to ZAR by 5%	(9,334)	1,472
Decline in AUD to ZAR by 5%	10,316	(1,626)
Improvement in AUD to CAD by 5%	(1,985)	0
Decline in AUD to CAD by 5%	2,195	0

**29 FAIR VALUE MEASUREMENT**

The only assets and liabilities recognised and measured at fair value on a recurring basis are land and buildings and shares in Australian Listed Entities.

Land and buildings are categorised according to the fair value hierarchy as Level 2 – inputs other than quoted prices included in level 1 that are observable for the assets or liabilities, either directly or indirectly.

The carrying amount of financial assets and financial liabilities approximate their fair value.

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value
- Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

**SCANTECH LIMITED AND ITS CONTROLLED ENTITIES**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2019**

**29 FAIR VALUE MEASUREMENT (CONT'D)**

Recurring and Non-recurring Fair Value Measurement Amounts and the Level of the Fair Value Hierarchy within which the Fair Value Measurement Are Categorised Below:

**Fair Value Measurements at 30 June 2019:**

	Quoted Prices in Active Markets for Identical Assets \$	Significant Observable Inputs Other than Level 1 Inputs \$	Significant Unobservable Inputs \$
Description	(Level 1)	(Level 2)	(Level 3)
<b>Recurring fair value measurements</b>			
Shares purchased in the year ending 30 June 2019 of - Australian Listed Entities	0	0	0
Reinvestment in shares for the year ending 30 June 2019 of - Australian Listed Entities	145,399	0	0
Investment in shares of - Australian Listed Entities	3,158,953	0	0
Land and Buildings	0	2,885,000	0
<b>Non- Recurring fair value measurements</b>	0	0	0

**Fair Value Measurements at 30 June 2018:**

	Quoted Prices in Active Markets for Identical Assets \$	Significant Observable Inputs Other than Level 1 Inputs \$	Significant Unobservable Inputs \$
Description	(Level 1)	(Level 2)	(Level 3)
<b>Recurring fair value measurements</b>			
Investment in shares of - Australian Listed Entities	3,049,470	0	0
Land and Buildings	0	2,912,500	0
<b>Non- Recurring fair value measurements</b>	0	0	0

There were no transfers between Level 1 and Level 2 Fair Values.

**Valuation Techniques and Inputs Used to Determine Level 2 Fair Values**

Description	Fair Value at 30 June 2019 \$	Description of Valuation Techniques	Inputs Used
Land and Buildings	2,885,000	Sales price comparison	Sales prices of comparable land and buildings in a similar location are analysed on the bases of rate per square metre of gross lettable area.

There were no changes during the period in the valuation techniques used by the Group to determine Level 2 fair values.

Aggregate fair values and carrying amounts of financial assets and financial liabilities at balance date.

**30 EVENTS AFTER THE REPORTING PERIOD**

There have been no material events after the reporting period that provide evidence of conditions that existed at the end of the reporting period.

**SCANTECH LIMITED PUBLIC COMPANY A.C.N. 007 954 627  
AND ITS CONTROLLED ENTITIES****Directors' Declaration**

The Directors of the Company declare that:

1. The financial statements and notes, as set out on Pages 10 to 34, are in accordance with the Corporations Act, 2001 and:
  - (a) Comply with Accounting Standards and the Corporations Regulations 2001; and
  - (b) Give a true and fair view of the financial position as at 30 June 2019 and performance for the year ended on that date of the Consolidated Group;
2. The Managing Director and Chief Financial Officer have each declared that:
  - (a) The financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
  - (b) The financial statements and notes for the financial year comply with the Accounting Standards; and
  - (c) The financial statements and notes for the financial year give a true and fair view;
3. In the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
4. The financial report complies with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) as disclosed in Note 2.

This declaration is made in accordance with a resolution of the Board of Directors.

## Independent Audit Report to the members of Scantech Limited

### Opinion

We have audited the financial report of Scantech Limited (Reporting) and Controlled Entity (the Group), which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration.

In our opinion, the accompanying financial report of Scantech Limited (Reporting) and Controlled Entity is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the company's financial position as at 30 June 2019 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Scantech Limited (Reporting), would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

A member of Bentleys, a network of independent advisory and accounting firms located throughout Australia, New Zealand and China that trade as Bentleys. All members of the Bentleys Network are affiliated only, are separate legal entities and not in partnership. Liability limited by a scheme approved under Professional Standards Legislation. A member of Allinial Global – an association of independent accounting and consulting firms.

### **Information Other than the Financial Report and Auditor's Report Theron**

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019 but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of the Directors for the Financial Report**

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's Responsibilities for the Audit of the Financial Report**

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or errors, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from errors, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
